

GLOBAL ECONOMICS | SCOTIABANK'S FORECAST TABLES

May 9, 2019

May Outlook

- Our forecast remains essentially unchanged from our most recent
 <u>Global Outlook</u>. We remain of the view that the weakness observed in
 Canada in late 2018 and early 2019 was temporary and there is mounting
 evidence that the soft patch is behind us.
- The key downside risk remains an escalation of trade tensions between China and the United States. Recent developments suggest there is less certainty that China and the US will come to agreement, but we continue to believe rationality will prevail and that the escalation in rhetoric represents the usual Trumpian negotiating tactic, as we saw in the final stages of the CUSMA negotiations.
